

*During a C&P examination, I had as much chance at parity before a North Texas Veterans Affairs racist, bigoted black woman as my Jewish ancestors did in begging for mercy from a Nazi closing the gas chamber door at Treblinka. Some would say, 'I am receiving the injustices met out to black folk.' Oddly, Nazis claimed the same reasons when persecuting Jewish scapegoats.* ***Bigotry blinds people horribly to many things****; for, my skin may appear white especially when that sickly pale; however, a mixture of* ***Afro–Black Seminole****, Brown Seminole, Cherokee, Russian, Jewish, and ironically German ancestral bloodlines comprise the skin that covers my body and blood that bleeds from it.* ***My blood and skin are just as black as hers but in smaller quantities.*** *This human form is gendered male and female, but nature constructed it dominant to the male polarity and her's to the opposite. Our flesh is the same: fragile, corporal, and dying. My Jewish ancestors, after German occupation of Poland in WW2, died in the Warsaw Ghetto and most of the survivors were butchered in the Treblinka, human*

*slaughterhouse, Nazi, Concentration Camp. My Russian ancestry underwent far, far worse under Joseph Stalin's purges. He made Hitler look like a piker. My Native American ancestors along with the Buffalo were genocidally hunted to the brink of extinction by the US government patriots, its Military Horse Soldiers,* ***Black African Buffalo Soldiers*** *and government agent bounty–scalp hunters. My ancestral survivors remain confined on Native American Reservations aka US Concentration Camps, and* ***bureaucrats just like that racist woman murdered and confined them there. Government Black Soldiers made up of emancipated slaves formed Buffalo Soldier US Calvary units and with the whites conducted the longest human slaughter known in history. Blacks mass murdering the red people because of their skin color. The most horrid human genocide did not occur in Nazi Germany but on American soil and emancipated black slaves were among the worst of our butchers.*** *Moreover, my bloodlines faced judgment* ***from public servants*** *just as she during summary executions at the end of a gun, rope, club, and saber, rotting in a gulag or concentration camp cell, and worse. I sympathize with her Black Nation's suffering; however, they are not the only human communities that have faced persecution in USA and elsewhere.* ***My people helped the African slave race escape their slavers before emancipation. We accepted runaways into our tribes, gave you sanctuary, food, shelter, protection and more while we were facing genocide of encroaching colonists butchering us and taking our homeland.*** *After black freedom they repaid our kindness with the same cruelty and murderous genocide of the white Christian immigrants and former slave owners participating in the longest, bloodiest ethnic cleansing in human history. Slaughtering we red people because of our skin color.* ***I would have thought after 1000's of years absent your humanity under the yoke, upon emancipation the black nation would have known better. Obviously the blacks never learned a thing and VA racist women like that Veterans Affairs employee C&P interviewer and her associate racists coworkers only prove it.*** *The only apology I am permitted to make to her people is this, if my 'heathen' ancestors would have allowed those fine 'Christian Pilgrims' to die starving in our maize fields those first winters, instead of helping them survive, black slaves would never have set foot on North American soil. For that only, I extend my condolences. Moreover, the only difference between she and I is that I do not wear ancestral intolerance as a chip on the shoulder or as a shirt sleeve of vicious self-pity to use as an excuse to hurt people out of self-hatred.* ***Her racist bigotry*** *did not go unnoticed during the interview.* ***I have encountered far too much of that in the VA system.*** *Nevertheless, I served this country defending every American's right to be a racist & bigot same as that woman's****. What surprises me is in finding such a hateful seed bed of it at a US government agency that claims to enforce US laws against practicing such behavior. Ignorance is what ignorance does. Every VA C&P review but for one was like that conference: racist, bigoted, dehumanizing, degrading, intolerant, humiliating, and a squander of time except for securing a soulless bureaucrat's job, which epitomizes the jackboot of parasitic, US, Nazi National Socialism. I am a US Veteran not a Comprachicos freak. Out of self–respect and tribute to the uniform once honorably worn in service to the US, I refuse to ever again expose my soul to contemptuous VA kangaroo adjudication or its bigoted agents.***
